"PROTEXON" RUST PREVENTATIVE may be used for coating machinery and small components of all descriptions. It provides a film which is impervious to moisture, acid, fumes, etc., and gives exceptional results when used on machinery shipped abroad.

"PROTEXON" is applied either by dipping, spraying, brushing, or swabbing, and gives an excellent appearance to the article treated.

It is supplied in four grades.

Write for full particulars, stating the purpose for which it is intended.
